OUTLAW TRACY CHOOSES DEATH

Takes His Own Life When He Sees Capture Is Certain.

OUTWITS THE LAW

Surrounded in a Swamp, He Keeps a Large Posse at Bay for Hours.

WAS WOUNDED TWICE

(Special By Scripps-McClellan.) Spokane, Wash., August 6.—Harry Tracy, the most desperate outlaw since the days of the James and Younger Brothers fought his last battle last night and this morning and, finding the task unequal, ended his own life, by firing a bullet into his brain.

Kept Posse At Bay
The escaped convict who had murdered thirteen men, was surrounded last night in a swamp eleven miles southeast of Creston, but succeeded in keeping the posse at bay for hours with a long range rifle. Re-inforcements were sent for and when they arrived the fight was resumed, the outlaw being twice wounded.

Shoots Himself

Then seeing that it was all over, Tracy placed the pistol to his head and snuffed out his life. His body was removed to Davenport where this afternoon it is the center of attraction for hundreds of people who are flocking to town from the surrounding country.

NO CLUE IS GIVEN BY DYING WOMAN

Miss Nesho Insists That She Knows of No Reason for the Crime.

Neosho, Wis., August 6.—(Special) —Miss Ida Nesho, the young lady who was mysteriously shot near here on Monday night, is slowly dying and all hopes of her recovery have been abandoned. She still persists that she knows of no cause for anyone to shoot her. General opinion is that the deed was premeditated and that she was the victim of a deliberate attempt on her life.

AMBASSADOR WHITE RESIGNS BERLIN POST

Relinquishes His Office on Account of Advanced Age and Lack of Health.

Berlin, Aug. 6.—Ambassador Andrew D. White has forwarded his resignation to Washington, giving as a reason for this action that he feels he can no longer support the cares and responsibilities of a diplomatic post when 70 years of age and intimating that he wishes to retire from public life.

Ambassador White is now at Hamburg, where he is taking the waters, and his health is by no means good. It is understood that he will remain there till the end of the month, returning early in September to spend the two following months preparing for the relinquishment of his post.

There is much gossip in Berlin concerning Mr. White's probable successor, and one circumstantial story is that the president intends to transfer Ambassador Tower from St. Petersburg to Berlin. Minister Storer from Spain to be ambassador to Russia and to appoint Henry White minister to Spain. Mr. Tower, who has been dissatisfied with St. Petersburg, expressed months ago a wish to be transferred to some other equally desirable post, preferably Berlin.

SIXTY-FOUR RESCUED FROM STARVATION

Italian Steamer Picks Up an American Schooner Found Drifting at Sea.

New York, Aug. 6.—Sixty-four persons were rescued from a slow death from starvation and thirst by the Italian steamer Sardenga, which arrived with the American schooner Notice in tow. The little vessel had been found drifting helplessly at sea. Its captain had committed suicide and the crew and passengers were beginning to suffer for food and water.

The schooner's mate, John F. Pina, said that the Notice sailed from Brava, Cape Verde Islands, for Providence, R. I., on June 27, with sixty-five persons on board. Of the sixty-five eleven were women. The schooner had no cargo and its hold had been fitted up to accommodate the passengers.

On July 21 a squall struck the little schooner and disabled it. The vessel drifted with the gulf stream. A spar was rigged for a jury rudder, and the little craft, having no spare canvas for headsails, did not steer well. Worry over the accident caused the captain to leap overboard.

GERMANY RESTRICTS THE IMPORTATION

Passes Laws as to the Condition and Shipping of Meats Into Germany.

Washington, Aug. 6.—(Special)—The state department today made public reports from Ambassador White at Berlin, dated July 12 and 14, that according to an official proclamation the meat inspection law will go into force in its entirety on April 1, 1903, with the exception of the section which relates to doing away with the second examination of meat once officially inspected. This paragraph will go into effect Oct. 1, 1901.

A report on the new regulations received from Consul General Richard Gruenthal of Frankfort, says the following imports into Germany are prohibited.

Sealed Meat

Meat in hermetically sealed boxes and similar vessels, as well as sausages and other mixtures of chopped meats; dog meats; also prepared meat of horses, asses, mules and other solidpeds; meats which have been treated with one of the following substances, or with a preparation containing such: Boracic acid and its salts, formaldehyde, hydroxides and carbonates of alkalis, sulphurous acid and its salts, hyposulphurous salts, flour, hydrogen and its salts, salicylic acid and its salts, chloride salts, coloring and substances of whatever nature. The latter, however, may be employed for coloring coverings, if not otherwise prohibited.

Only Whole Carcasses

Fresh meat may be imported into Germany in whole carcasses only. When imported in halves the two halves must be so marked as to be readily identified.

A. Braun of LaCrosse committed suicide by jumping into the Mississippi river. His wife and five children died of diphtheria within the last week and the only remaining one is a cripple aged 13.

DEMOCRATS ARE STILL FIGHTING

Accuse Jones of Not Being in the Party Since '96.

ROSE IS FAVORED

Many Madison Democrats Are Being Watched by Republicans for Frauds.

MATTERS ARE MIXED

(Special A. D. Dispatch.) Milwaukee, Aug. 6.—Democratic politics this morning seem in as badly a mix as do the Republican affairs. Democrats at Madison are enthusiastic in their support of Burr W. Jones for the nomination and Milwaukee men are equally insistent that David Rose is the man to carry the Democratic party to victory this fall.

Charge Desertion
A prominent Democrat is quoted in one of the morning papers as saying that Mr. Jones is a bolter and does not deserve the support of the Democrats. In an interview printed, this same Democrat says that Mr. Jones deserted the Democratic party in 1896 when Bryan first ran and was elected.

One Man Killed
One member of the band of robbers was shot and killed by Byle, the Adams Express messenger, who unloaded his pistol at the retreating band after the robbery was completed. A posse of thirty-five armed men are following after the five who escaped and a fierce battle is expected.

How It Happened
The train passed through Savana at eleven last night. When it reached Long River bottom near Marcus, the engineer stopped the train in response to repeated torpedo signals. As he did so he was covered by two masked men while others cut the engine and express car from the train.

Dynamite the Car
The engine and express car were taken up the road some distance and the car dynamited. The robbers took all of value from the safes and then mounted horses and rode away at a gallop. It was then that Byle shot one of them.

Railroad Men
After Byle had emptied his pistol one of the men was seen to reel in his saddle but was kept along by his comrades although evidently dropped by the roadside where he was found to be dead. The dead desperado and his five companions are all supposed to be railroad men.

Republicans Watching
The Spooner.—Republicans are watching the "fair-minded" Democrats and should they attempt to vote in Democratic caucuses, arrests are liable to follow.

Madison Mix Up
From reports from Madison it would also appear that M. J. Regan and Col. Rogers were having it out and that Regan had received the worst of it and was complaining.

The worst of it and was complaining. The situation there is also a complex one, as several leading Democrats openly worked for LaFollette and voted for him at the polls. Many of these men have been fine Democrats and some have been recent office holders. Where they will stand in this fight is not known and complexes the situation.

Combine to Beat ALLEGED TRUST

The Retail Dealers Would Fight the Packers in Every Move.

New York, Aug. 6.—(Special)—Strong denunciation of the alleged beef trust formed most of the address of President Wagner upon the opening of the annual convention of the National Retail Butchers' and Meat Dealers' association in this city today. "Our fight has been for freedom and commercial liberty against the tyranny of a few brought about by an agreement of wealth—a struggle to maintain our manhood and business integrity without being controlled and hampered and dictated to by the few who rule with an iron hand, and whose aim seemed to be the absolute dictation of price, limiting supplies when they thought it necessary to maintain prices; enforcing the payment of disputed claims, irrespective of their accuracy; back-stabbing men whose honesty and integrity had never been questioned. If a feeble protest was made and payment withheld for an injustice perpetrated upon them."

Problems Presented
Among the recommendations of President Wagner of methods to be followed in solving the problem presented by the beef trust are: "That several states take up for their respective cities the establishing of public abattoirs, where butchers can do their own slaughtering, encouraging home industry and the raising of all kinds of stock in the immediate neighborhood of cities. Particularity is this true of the southern, middle and eastern states. That our federal government eliminate the duty on cattle and live stock or modify it to an extent that importation of live stock will not be prohibited."

Court Decision
On the date last mentioned he said that he was declared by the highest court of Berlin to be of sound mind and further that such was his condition since he returned to Germany. The petitioner declared that the state department ignored this circumstance and based its non-action on irrelevant matters and things which occurred twenty years prior to his becoming an American citizen. He further said that he had not been taxed or remiss in prosecuting his grievances against the German government, and that the United States government took no action in the matter.

Declined to Issue Writ
When the petition was presented to Justice Hagner he declined to issue a rule requiring the secretary of state to show cause why the writ of mandamus should not issue. Mr. R. S. Tharin, counsel for the petitioner, stated that he wished the proceedings to be instituted, as the petitioner is unable to bear the expense of the litigation.

Fourteen officials were arrested for the implication in the misappropriation of funds to the extent of \$1,000,000 from the city treasury of the Maria Theresa Hospital, Hungary.

Andrew D. White, American ambassador to Germany, resigned to take effect November 7. Ambassador Tower and Minister Storer have been spoken of as his successors.

A circular letter by the American Bookseller's association disclosed anti-trust law violation in ordering the black list of Street & Smith, who refused to join the association.

The terms of the Cuban loan which was passed by the senate called for an immediate issue of bonds to the extent of \$5,000,000 for agricultural relief, and \$30,000,000 to come later for the army.

City officials in Chicago have recovered stolen portions of streets by chopping away corners of buildings and tearing down fences. Other streets will be redeemed in the same way.

Premier Sagasta of Spain has announced his determination to retire from public life. The greatest problem of the country, education, will have been unsolved in the case of his resignation.

Oliver G. Johnson, of the New York Stock Exchange, has been appointed to the board of directors of the Bank of America.

Chicago police have been ordered to make arrests in connection with the recent shooting of a man in a restaurant.

SUCCESS ASSURED THE CARNIVAL

ELKS' GRAND AFFAIR TO HAVE
MANY NOVEL FEATURES.

WHO WILL BE CHOSEN QUEEN?

Happy Hooligan and Gloomy Gus
Write They Will Come—Pub.
Hic Marriage.

From present indications the Elks' Carnival of the week of August 18 promises to be one of the biggest affairs of its kind ever held in this part of the country. Secretary McIntosh is in daily communication with bands and entertainments that want to be on deck that week. In fact everyone seems to have heard that Janesville is to have an Elks' Carnival and Midway and is preparing to come and join in the fun.

Queen of Carnival

One of the latest features to be brought out is the Queen of the Carnival. This young lady will be elected by popular vote. The field is open to all and the prize is to be ten days at Atlantic City, with all expenses to and from and while there paid by the Elks. The only condition is that every vote be accompanied by one cent. Little envelopes will be distributed about the city and the votes with the money will be deposited in Smith's pharmacy. A committee of five ladies will then count them and decide who is the lucky one.

Really Queen

Aside from the trip to Atlantic City the young lady chosen will be Queen, presiding at the grand Mardi Gras that will come the last night of all the week of fun. Confetti and jollity, with mock parades and bands playing promise to make this closing feature of the whole week a feature to be remembered.

Distinguished Visitors

Among the distinguished visitors who have sent word to Mr. McIntosh that they would be present are "Happy Hooligan and his brother Gloomy Gus." They will arrive the Monday of the Carnival week and will stay until the last tent is down on Saturday night. These two gentlemen are organizers and will have a Hobo parade under their leadership one night that promises to be a most unique feature. They will also lead the "Bare-Footed Friars" parade that will be presented for the first time here in Janesville.

A Clean Carnival

That the carnival will be a clean one and that all objectionable features will be eliminated is an assurance. Mayor Richardson and Chief of Police Hogan are to have charge of the passing on all shows that are to be exhibited and they will not allow any entertainment to go on that will in the least mar the wholesome effect of the whole carnival. There will be no gambling on the streets as is often the case in street fairs that are not carefully policed.

Also the city is to be most carefully policed and experienced detectives who know every crook and "con" man in the country will be here to pick up any suspects that may arrive. Chief Hogan has this feature of the entertainment in charge and this assures its success.

Public Wedding

One night in the week there will be the public wedding. Mayor Richardson will preside and the happy couple will be Chas. Johnson and Margaret Piece, well-known in the city. The affair will be conducted on a raised platform where everyone can have a full view of the ceremony and it will be performed with all of the solemnity of a swell church affair. Manager McIntosh also has several other applications for similar services and will decide the day and time later.

Many Bands

Each day there will be a band from outside in attendance and music will be heard galore. Aside from the two bands with the Morris & Berger Carnival company this outside band will play on the Corn Exchange or in the Court House park. The Imperial band will also play for one entire day thus assuring the music loving public of fine music throughout the whole week.

Elks Meet

Last night the Elks held an interesting meeting at which particulars of the work were discussed and plans laid for the entire week's enjoyment. All the shows will be directly under the supervision of some individual Elk who will be present to handle business in the capacity of manager. The Morris & Berger Co. will arrive on the Sunday night of August 17 from Tiffin, O., where they show the previous week.

On the Change.

As a rule when a vote of thanks is offered, it is for something that has resulted in or will bring good to a number of people, but it is hard to find where the action of the grain market during the month of July, has been of benefit to any great number; it may be that a few parties have profited by the maneuvers, but it is safe to say that everyone directly interested, whether a bull or a bear, or whether a handler of cash grain or a trader in futures, was thankful at the close of business last Thursday, and it is to be hoped that it will be many years before we must again pass through such a month.

All theories were for naught. The legitimate hedgers suffered because they sold against what they had, and what they believed to be a safe business risk, only to be compelled to take severe losses when the prices of corn and oats went skyward. That class of short sellers, actual handlers of grain, deserve sympathy for without them the grain business would revert back to the customs which prevailed twenty, thirty or more years ago and we could not well do without them. That method of handling grain means higher average price to the farmer. No sympathy, however, should be wasted on the chronic short seller, who neither

owns, handles or ever expects to deliver a bushel of grain he has sold. The outside speculator suffered severely, as it was simply an impossibility to follow the lightning changes, or do his trading on any basis whatever, or on factors which usually govern values. The consumer of cash grain suffered, because he had to pay a very high price all during the month for corn and oats and the country grain buyer suffered for the reason that he bought grain at high prices, cleaned it well, expecting to get a certain grade on it, which in most cases he did not get and consequently had to submit to severe discounts, or else the market broke so badly before his shipments arrived, that from every point of view, the result was very disastrous to all concerned. The bulls as a rule, have a hard enough time, but whoever heard of a bull asking for an injunction, or for a marginal price, or anything else to help him out; or whoever heard of a bull refusing to take grain when it was offered to him, very often of inferior quality, too, even after being run through the elevators (hospitals) here but no had to take it just the same. It seems that there is only one thing for the poor bull to do, and that is to put up his money, suffer his losses and guess again.

BED OF CONCRETE EIGHT FEET DEEP

A Carload of Stone to Arrive Each Day for the Interurban Cut Bridge.

Concrete to a depth of eight feet is being filled in to make the foundation for the abutments of the bridge which the Northwestern railroad is building where the cut for the Interurban road has been made to the south of the city beyond the Choate-Hollister furniture factory. It will probably be two weeks before this work will be completed and then the stone laying will begin.

Carload a Day.

Up to the present time three carloads of stone have been received from the Duck Creek quarry and masons have nearly completed shaping this amount. From this time on, the stone will arrive at the rate of about a carload a day and the masons will be able to handle it fast enough to keep ahead of the rest of the work.

More Men Needed.

The scarcity of workmen is not felt there at present as strongly as it was earlier in the work. Foreman Welsh has a good sized force of men working under him, but he says that he could easily handle more if he could get them.

There is a large stone culvert which had been built through the embankment at the point where the cars will finally run and this will have to be removed before the work is completed, but nothing has been done on it up to the present time. The force of men is not large enough to permit of doing as much work at once as the situation would allow.

COMPLETE MODEL OFFICE ROOMS

Convenient New Quarters of the Janesville Machine Company are Ready.

Extensive improvements in the office quarters of the Janesville Machine company have been recently completed making the arrangement of the various departments more convenient than formerly and centralizing a part of the force that was formerly located in the rooms on the second floor.

The general manager has been given an entirely new private office, shut off from the remainder of the desks in his department, and the superintendent also has been located in remodeled quarters. The books and accounts that were formerly kept in the upstairs offices, have been given a place on the first floor and the large room formerly taken up by desks of the sales department has been cut in two by a partition. A part of the clerical department that has in the past been located in the upper offices, has also been transferred to the lower floor.

What Osteopathy Has Done.

"Lumbago":—

Mr. J. W. Purdy, 1009 Congress Ave. This case was of four years standing, the patient suffered a great amount of pain at intervals. A lift throwing the strain upon the lumbar region or riding a wheel would send him to bed for a few days. Upon examination, found lumbar region very stiff and much contraction of the tissues. Treatment given was to relax the lumbar region. Three weeks treatment permanently cured this case, the case being discharged over a year ago. No return of the symptoms to date.

Constipation and Hemorrhoids:

Mr. A. H. Ashford, stenographer Southern Pacific R. R., Houston, Texas. After taking one month's treatment of us, was cured of a bad case of constipation of fourteen months' standing, also hemorrhoids. Patient was under the necessity of taking a "purgative" to get a movement from bowels. After first treatment he did not take any more drugs, and after first week, bowels moved naturally. Treatment was applied to spine to relieve the contracted condition from ninth dorsal throughout lumbar and sacral regions. This case was dismissed more than nine months ago and the gentleman says the cure has proven permanent.—Drs. Clark & McCormick, Houston, Texas.

A SMALL BOY DROWNS IN WELL

FELL THROUGH PLANK COVERING WHILE PLAYING.

U. S. HALL'S GREAT GRIEF

Little Frank Hall, Aged Two Years Dies Before Aid Reaches Him.

A distressing accident happened at the home of U. S. Hall, of Johnstown Center shortly after noon yesterday, by which his two-year and two-months' old son, Frank Otis Willie Hall, lost his life by drowning.

Mr. and Mrs. Hall were in this city at the time and the little boy and three other children were left at home with the hired girl. There are two cisterns on the place, one of which was not in use and was covered up with boards. The cistern was about 10 feet deep and had but eight inches of water in it.

Fell in Cistern. The children were playing about the yard and Little Frank in some way, moved the board over the top of the cistern and fell in. The other children saw him fall and told the hired girl, who in her excitement did not see if she could save the child, but rushed off to the neighbor's, half a mile away for help. They took the little fellow out of the cistern as soon as they reached the place, but life was extinct.

Fall Stunned Him. It is thought that probably Little Frank was stunned by his fall and lay in the water and strangled, as the water was not deep enough to drown him if he had stood up.

Funeral Wednesday. The funeral will be held from the home of his parents, Mr. and Mrs. 10 o'clock, the Rev. S. G. Huey officiating. The interment will be in U. S. Hall, Wednesday morning at the Johnstown cemetery. Mr. and Mrs. Hall are well known throughout the country and have the sympathy of a large circle of friends.

REVENGE HIS FATHER'S DEATH

Son Redeems Vow of Vengeance Made Fifteen Years Ago.

Mount Sterling, Ky., Aug. 6.—Fifteen years ago the lifeless body of John Fitzpatrick of this city was brought home, the victim of an unknown foe. His ten-year-old son Walter vowed vengeance on the murderer. Suspicion pointed to "Sld." Tipton, now living in Lexington, but it was only suspicion. Tipton walked into the blacksmith shop of Fitzpatrick.

"Leave! Get out of here!" shouted Fitzpatrick. Tipton started to explain, but Fitzpatrick dealt him a blow on the head with a heavy hammer, and then, drawing a pistol, fired, the ball entering the right hip. Tipton was taken to Lexington for treatment. Fitzpatrick was put in jail.

LIGHTNING KILLS A CORONER

Bolt Tears Strip From Yawl in Which He Had Been Fishing.

Atlantic City, N. J., Aug. 6.—Former Coronor William M. Wells of Burlington county was struck dead by lightning by the side of his wife, to whom he had been married but a few months. The bolt tore a strip from the side of the yawl in which he had been fishing with his wife and another young woman.

Artillery Saves Fruit. Salem, N. J., Aug. 6.—During the heavy artillery practice at Fort Mott recently the fruit trees in the lower part of Salem county were rid of the caterpillar plague. THE SITUATION.

Wisconsin is still the storm center of the Republican fight. The eyes of all the county are still resting on the voters of the state to see what fool thing they are going to do next. The country at large wants to know just what they mean by the threat that Senator Spooner is to be turned down and another man put in his place, just because he does not suit the fancy of some of the Republicans who are in power and are jealous of his great mind. From now on until November 4, the papers throughout the country will devote more or less space each day to the discussion of the true status of the political situation in the Badger state.

To an outsider, a Democrat, the affair is laughable. Here are the two factions of the Republican party fighting each other tooth and nail. Here they stand arraigned against each other ready to jump at the throats of the other, yet kept apart by the fear that Democracy will take advantage of the slip and score a victory by winning out itself.

Democracy has a chance as it is. In the parlance of the betting fraternity, "Democracy is a good proposition to tie to if the fight keeps up." If Democracy can settle on one man for their choice of governor, be it Jones or Rose, and then combine together with a few dissatisfied Republicans, who proverbially bolt in 'off' years, they can capture the whole state ticket, legislature and all and elect a Democrat to the United States senate. This is the proposition that is staring the Republican party in the face and yet the leaders of the two sides stand firm for what they want. The one for what they have won by packed caucuses and the state convention, the other on the last hope that the voters of the state will awake from their lethargy and elect a legislature that will elect John C. Spooner United States senator despite all oppositions.

THE SPOONER SENTIMENT.

That the Spooner sentiment is wide spread, is apparent to the most casual observer. The people want him and they are saying to their representatives all over the state, "We want him without any strings attached." The men who voted to insult him in the convention, have discovered that they represented no body but the one man who made a tool of them.

Just why an intelligent body of men became so thoroughly infatuated with LaFolletteism as to lose all regard for common sense and decency, is a question that is difficult to answer. They were ready to shout and vote for anything contained in the platform and ap blank endorsing polygamy would not have been turned down.

Senator Spooner represents Republicanism and the platform adopted, LaFolletteism. They are as much alike as Bryanism and Democracy. It was possible for the party to hold the administration in check for two years and the experience will be repeated for two years to come. LaFollette will be the governor, but Republicanism will govern.

Senator Spooner will remain in the senate, because the people demand his services. Men are being elected in all parts of the state to carry out the wishes of the people. No "fair-minded" Democrats are invited to oppose and the action of the convention is being ignored.

EXPORTS DROP.

It is now impossible to determine accurately the movements of manufacturers and manufacturers' materials in the foreign commerce of the United States during the fiscal year 1901.

The June report of the Treasury Bureau of Statistics, showing the imports and exports by articles for the month of June for the entire year compared with preceding years, has just been completed and given to the public. It shows that the total exports of manufactures are \$403,890,763, against \$412,155,066 in 1901, a reduction of \$8,264,303. In iron and

steel manufactures alone the exports have fallen from \$117,319,320 in 1901 to \$88,552,503, a reduction of \$18,765,758. Thus the decrease in iron and steel manufacturers alone is ten million dollars greater than the total reduction of exports of manufactures, indicating that in other articles there has been a net increase. Taking the general class of manufactures exported, it may be said that a majority show an increase in 1902 compared with 1901, while some of the articles showing a decrease in value of exports show an increase in quantity, indicating that the reduction is due in some cases to reduced prices and not to reduced exports. In copper, for example, the exportation of ingots, bars, plates, etc., amounted in the fiscal year 1902, to 288,720,655 pounds, against 252,769,328 pounds in the preceding year, an increase of 35,951,329 pounds; while the value was in 1902, \$39,190,169, against \$41,260,376 in 1901, a reduction of \$2,069,757.

Ever since they started to fix the Milwaukee street bridge, the street car lines have been tied up. Passengers have been forced to transfer across the bridge. This state of affairs kept up and is now in operation. To say that it is inconvenient to the passengers, is mild, to say that it has caused the street car company to lose money, is but a statement of facts. Now comes the proposition. The Elks are to give a street fair and carnival. The bridge is only half done, but still the other half is to be left until the carnival is over. The Elks, not the street car company, nor the travelling public, could affect this, but the Elks could. Good for the Elks, may their carnival be a success.

Circuses, and shows of its kind, always attract in its wake a set of worthless characters, who merely follow in order that they may pick up an easy penny at the expense of the loser. Janesville has three shows coming here inside the next twenty days. As a warning and precaution to all housewives, they should see that all their windows and doors are securely fastened when they go out during the day or at night. An open window is a temptation for a man who has no scruples and little things, while not valuable, are missed when taken without consent.

Miss Alice Roosevelt, daughter of President Roosevelt, attends church and the ever ready curiosity seekers flock to the church immediately. They crowd the doors and watch every movement that plain and unassuming Miss Roosevelt makes. Miss Roosevelt is a charming girl and very sweet to look upon, but this hero worship, brought down into the second generation, is really tiring.

The Milwaukee News publishes each day comments on the Republican political fight. They are pitiful and to the point. Here are some of the samples:

"A game warden, Riley of Minocqua has been here twice recently." The Rhinelander New North, says, "obeying orders and passing the word around that the member of the assembly must be a LaFollette man.

"With the primary law as an issue this year there is a great danger that the candidate who stands for election upon it, will be buried in the ruins of the structure that he himself built. Verily, "those whom the gods would destroy they first blind."

PRESS COMMENT

Brown County Democrat: The Democrat moves the nomination of R. J. McGeehan for congressman in this district.

Menasha Breeze: After consuming six columns of newspaper space to reply, the Winkler letter still remains unanswered.

Lake Geneva Herald: That "defense" of the "platform" by Chairman Bryant, does not put that Populist production in a better light before the Republicans of the state.

Darlington Democrat: The result of digging up the Journal's opinion wouldn't pay for the work. Please print it again dear Journal, if it isn't asking too much.

Waupaca Record: The Milwaukee Journal says, "The Democrats see victory." We would remind them that they must believe nothing that they hear and only half of what they see.

Whitewater Register: There is only one proposition of vital interest in this campaign to real genuine Republicans in Wisconsin, and that is the return of John C. Spooner to the United States senate.

Waukesha Dispatch: The State and nation are to be congratulated upon Col. Vilas' active re-entry into politics, and the welcome accorded him by his party and the country have certainly been most flattering, but not undeserved.

Eau Claire Leader: Gen. Bryant admits in courteous language that Gen. Winkler and his minority have a perfect right to think as they please, provided they think right, otherwise it would be giving a latitude to the most damnable heresies.

Fond du Lac Commonwealth: The letter admitted of a brief answer and yet Gen. Bryant occupies some four columns of space in making it. The object of so voluminous a reply is evidently to subdue its dictatorial character. Though enveloped in thousands of words, its essence is that unless one subscribes to every plank in the Madison platform, the Spooner insult, the primary election plank, and all, then he is no longer a Republican.

The Palmyra Enterprise is not giving its support to LaFollette. It opposed him on principle and his nomination does not change the principles at issue. The Enterprise says: "With the primary law as an issue this year there is a great danger that the candidate who stands for election upon it, will be buried in the ruins of the structure that he himself built. Verily, "those whom the gods would destroy they first blind."

NEWS OF THE CITY IN BRIEF.

More Men Needed: Great difficulty has been experienced by the Geo. W. Hall show ever since they left Evansville last Saturday in obtaining enough men to handle their property. At present they are about twenty hands short after having picked up men at every place that they have stopped.

Court News: Before Jesse Earle this morning judgment was given for F. A. Taylor vs. Henry Westrick for \$6,55. Judgment was also given for Fethers, Jeffris & Mount vs. Anthony J. Schmit for \$4,650. The case of C. J. Folsom vs. Ida Burt was argued in the same court but held open for decision until August 11.

That Lost \$1,000: George Davis, the contractor, lost the \$100 in the crowd Saturday night does not live in the city as stated, but at Emerald Grove. He drew the money from the bank to pay his men. Mr. Davis has as yet received no trace of it.

The New Directory: Mr. Edgar D. Baileck is to publish the new Janeville directory. Harry Kirkland, Ross Bump, C. H. Sutherland and W. H. Fox are the young men at present engaged on the work of collecting the census and taking subscriptions at \$1 each for the book. All residents are requested to answer and questions asked so that the work may be accurate.

Smoke Helmets for Firemen: Proof was given at a fire in Liverpool recently of the value of the newly invented smoke helmets. The volumes of smoke were so dense that the firemen were beaten back, but, donning the smoke helmets, into which air is pumped as in a diving equipment, they descended into the smoke, bearing the hose in one hand and electric flambeaux in the other and soon succeeded in putting out the flames.

SUPPER CLUBS AT VASSAR.

Conspicuous in the social life of Vassar are the supper clubs that meet on Sunday evenings, their motto being, "Eat, drink and be merry, for tomorrow is Monday." The supper is prepared by the different members in turn. The names chosen for the individual clubs are the Gobbling Goops, the Nine Nimble Nibblers, the Seven Suppers and the Consumers' League.

HORRIBLE DEATH FOR MRS. BOEHM

KILLED BY RAILROAD TRAIN AT MONTEREY CROSSING.

BAD PLACE FOR AN ACCIDENT

Cut Hit the Train from View and Mrs. Boehm Drove in Front of the Engine.

A fatal accident occurred about 11:35 this morning at the Second street Northwestern crossing, south of the Monterey bridge. The victim of the accident is Mrs. Chas. Boehm, a lady about fifty years of age, who resides on Carle avenue in the first house south of Second street.

Fast Train

The train that killed her was the Green Bay express due here at 11:40 and was in charge of Conductor Clark Stewart of Chicago and Engineer Fred C. McLean of this city.

On Her Way Home

Mrs. Boehm was on her way home and was driving a horse attached to a buggy. She drove onto the track not fifty feet ahead of the approaching train, which was just coming out of the deep Milwaukee cut and was running about twenty miles an hour. The engine struck the buggy squarely in the center, killing the horse, smashing the buggy and throwing Mrs. Boehm off to one side where she lay as if dead.

The train was brought to a standstill as soon as possible and backed up to where the accident occurred. The trainmen found that Mrs. Boehm was still alive and she was picked up and placed on a cot and brought to the passenger station. A telephone message was sent for the patrol wagon and Dr. W. H. Palmer, the company's surgeon, was summoned. The injured woman was taken to the Palmer Memorial hospital where she died of her injuries about one o'clock.

At The Hospital

Examination by the physicians at the hospital revealed the fact that several bones were broken and that there were three bad scalp wounds besides the severe internal injuries which doubtless caused her death.

The deceased is the wife of Charles Boehm, an employee of the Janesville Machine Co. Engineer McLean stated that they were coming into the station at their regular rate of speed and that he did not see the buggy until they were within fifty feet of it.

He at once shut off the engine and put on the emergency brake, but the engine struck the buggy almost before he could make a move. The track at this point is in a cut with high walls on either side and it is almost impossible for an engineer to see twenty-five feet ahead on account of a curve in the track.

He had blown his whistle at the further end of the cut and the bell was ringing when he struck the buggy. Outside of a few dents in the pilot the engine was uninjured.

Bad Place

The place where the accident occurred is one of the worst railroad crossings in the city and has been the scene of several accidents similar to the one of today. On account of the cut it is impossible to see a train coming from the south until it is almost on the crossing when it is too late to get out of the way. There is absolutely no way of warning pedestrians of the approach of the train, except when they are coming from the station, they can be seen before they are on the bridge which gives anyone plenty of time to get out of the way. When they are coming from the south they cannot be seen and it is wonderful that more accidents do not occur at this point.

Not The First

The accident today is a repetition of the one that happened twenty years ago when M. G. Jeffries was badly injured and Mr. Chase was killed. It was the train due here at the same time and happened under the same circumstances.

Child Was Unhurt

Mrs. Boehm had two year old child with her in the buggy, when the engine struck them. The child was thrown from the buggy and escaped with a few slight cuts.

NEWS OF THE CITY IN BRIEF.

New Samples Ready: The Marzlin company have finished work on their samples and their salesmen will start out on the road in a few days.

Bridge Plank Breaks: Quite a hole was broken through the flooring on the South side of Court street bridge yesterday. A rotten plank gave way under the weight of a loaded wagon.

Minstrel Show: Gleeson's Minstrels gave a second performance on Tuesday evening which was well attended, although the audience was rather smaller than on Monday. The work of the minstrels was fully up to the high standard that was set on the first night of their engagement.

Band Concert: Large numbers attended an excellent concert which was given on Tuesday evening in the Court House park. The program rendered was rather above the average and the crowd was somewhat larger than usual. In other features this concert was in no way different from those which have preceded it.

School Board Meeting: The school board held a meeting Tuesday morning at E. B. Helmstreet's office and decided to start the work of putting the addition on the Adams school building at once. They will advertise for bids for doing the work and hope to have the room ready by the opening of the fall term of school.

INTER-URBAN LINE IS WORKING

Section Between Beloit and Rockford is Now in Operation.

The Rockford, Beloit, and Janesville electric line opened up for traffic Monday morning between Beloit and Rockford. They are now running two cars borrowed from the Rockford and Belvidere line and make a trip between the two cities every hour. They make the run from Rockford to Beloit in about fifty minutes. The fare is forty cents each way.

New Cars Shipped

Some of the cars ordered by the company from Niles, O., have been shipped and will soon be put in service. They are said to be beauties and will carry one hundred people at a pinch.

Grading Nearly Finished

The graders are working towards this city from Beloit and have a good share of the work done. It is hardly probable, however, that they will have the cars running before the first of October.

Fox River Valley Foresters will give a picnic at Brighton Beach to-day.

DRIVERS ARE ON A STRIKE

TEAMSTERS EMPLOYED BY BLAKE BROS. WALK OUT.

BLAKE WILL REMAIN FIRM

The Trouble Arises Over Employing a Non-Union Team on Stone Hauling.

At nine o'clock this morning nine union teamsters in the employ of Blake Brothers of Madison, who have the contract for the grading and paving of Milton avenue, refused to work longer because a non-union team had been put on the work. They hold that there are union teamsters whose horses are able to do the work satisfactorily, who are not employed, and that they should be taken in preference to those who are not members of the labor organization and are not entirely dependent upon their teams for a living.

Employed Non-Union Teamster

Yesterday a team belonging to the Fiffeld Brothers' lumber company was employed on the work and T. J. Spohn, a member of the teamster's union, was delegated to present the grievances of the organized men to the contractor.

The teamster's union, however, would not be doing their duty by the union if they were to continue to work while the union men were lying idle. From this interview the impression which the union men received was that the Fiffeld team would be taken off the work.

Instead of that the team was merely transferred from the work of hauling stone from the city crusher plant to the grading work. The union men who were already on that part of the job were put to hauling stone, and a team belonging to Blake Bros., aided by a team of a Milton avenue resident, were pressed into service on the work.

EDWARD READY FOR CORONATION**COURT REHEARSES CEREMONY**

Substitutes Fill the Parts to Be Taken by the King and Queen—Emphatic Denial Given to Rumor of Another Operation.

London, Aug. 6.—King Edward will return to London to-day to remain until after the coronation. It is expected that his majesty's return to the capital will be marked by a great street demonstration en route to Buckingham palace. The trip to London will be made on a royal special train, but there will be no invalid chair or other special arrangement, as it is felt that his majesty is fully equal to the fatigue of the journey.

On account of the approaching coronation most of the volunteers are at present undergoing their annual training at Salisbury. It has been decided that they are to leave their camp Aug. 3, instead of Aug. 2.

Rehearse Without Royalty.

The rehearsal of the coronation ceremony in Westminster abbey was the most largely attended and elaborate one which has yet been held. The King and the Queen and other prominent personages who were not present were represented at the proceedings by substitutes. Colonel Brooklehurst, equerry to her majesty, impersonated King Edward, and Lady Suffield, one of the ladies of the bed chamber, took the part of the Queen. Even the servants were drilled in their duties connected with the robes arrangements, and the pages carried out, theoretically, their functions of coronet carrying and train bearing.

Denial of Operation Rumor.

Although the religious and musical features of the ceremony were omitted the instructions and repetitions by those who are not perfect in their parts caused the rehearsal to occupy about the full time planned for Saturday's ceremonies.

A story afloat for several days that a second operation for appendicitis will be performed on the King after the coronation is denied here. According to all authoritative reports, the King is making an excellent recovery, and it is considered unlikely that his physicians would allow him to endure the fatigue of the coronation ceremonies if another operation was impending.

ALLEGES MAN HAS FIVE WIVES

Mrs. Josephs No. 1 Says Her Husband Married for Money.

Morris, Ill., Aug. 6.—If the statements of the Chicago woman who claims to be Mrs. Alexander Josephs No. 1 are true Josephs is going to bid fair to eclipse even the famous matrimonial efforts of Bates. Mrs. Josephs No. 1 says that there are four other young women whom Josephs married at various times with the view of securing pecuniary gain. Josephs has been unable so far to give ball. He stoutly denies all the charges against him.

Andrews' Trial Near Close.
Detroit, Mich., Aug. 6.—The defense in the trial of F. C. Andrews for the alleged wrecking of the City Savings bank has about concluded its case. Andrews will probably be the last witness to-day and the case will go to the jury late this week.

Celebrate York Day.
York, Me., Aug. 6.—The two hundred and fiftieth anniversary of the settlement of this town was observed by a floral and historical parade, followed by commemorative exercises. There were 20,000 visitors in town during the day.

Attorney E. M. Richmond of Evansville had business in this city yesterday.

Tired

that's all. No energy, no vim, no vigor, no ambition. The head aches, thoughts are confused, memory fails. Life becomes a round of work but half accomplished, of eating that does not nourish, of sleep that fails to refresh and of resting that never rests. That's the beginning of nervous prostration.

"I was very tired and so exhausted that I could not do my work. One dose of Dr. Miles' Nervine quieted my nerves and drove away the lassitude. Seven bottles did wonders in restoring my health."

BIG STEAMER IS CUT IN TWO**PASSENGERS IN A WILD PANIC**

Rush to the Deck in Night Clothes and Much Difficulty is Experienced by Officers in Preventing Them From Jumping Overboard.

Cleveland, O., Aug. 6.—Aroused from their slumbers by the crashing of timbers, and thrown from their bunks by the careening of the vessel, twenty-five passengers and members of the crew of the steamer City of Venice rushed wildly to the deck, to find the boat almost cut in half and fast being dragged to the bottom by the weight of the 3,000 tons or iron ore it carried. A few feet to one side loomed the steel prow of the steamer Seguin, which, in backing off from the vessel, left a huge hole through which the water was pouring.

Capt. Broderick rushing from his stateroom in his night robe, rallied the panic stricken crew, and in five minutes the life-boats touched the water. Quickly as the work was done, it did not prevent some of the passengers and crew from leaping into the water, whence all but three, who were caught in the swirling eddies as the ship sank, stern foremost, a few minutes later, were rescued.

Drowned and Injured.

The drowned: Thomas Flanagan, Peter Simondson, and George Weir.

The injured: Louis Hulbecker, J. A. McDougal, and John Sullivan.

The collision occurred off Hondean, Canada, and the City of Venice went down in water more than 100 feet deep. The cause of the accident is unknown, as lights were burning brightly on both vessels at the time. There was no fog.

The second mate of the Seguin, W. A. Lavigne, who was on watch, refuses absolutely to give any information in regard to the way the accident happened.

"The less said about it the better," was the only statement he would make.

Struck Amidships.

The City of Venice was bound to Buffalo, while the Seguin was going north to Perry sound from Ogdensburg. On board the Seguin all were asleep save the second mate, Lavigne, and the watchman who was with him in the pilot house. The first mate of the Venice, Sullivan, was on watch aboard the boat that went down.

The first that was known that anything had happened was a terrible crash which brought both boats almost to a standstill. The Seguin had struck the Venice fairly amidships and plowed its way half through the boat.

Many of those who jumped overboard were picked up by the lifeboats from the Seguin. After standing by for an hour the Seguin headed for Cleveland with the survivors.

First Mate Sullivan of the City of Venice, who is lying in a critical condition at the Marine hospital, rallied slightly and made a statement.

Statement by Mate.

"I was on the night watch," he said, "it was something after midnight when I first saw another boat ahead. It was still some distance away, but I blew the whistle to signal the boat. It did not answer. Our lights were burning and there was no fog, so I don't see how they could have helped seeing our vessel. When the boat was considerably closer I whistled again, but still there was no answer. I was then frightened and signaled still another time. I saw that we were not seen; at least there was no attention paid to our signals, and the boat was bearing directly down upon us.

Attempt to Escape Is Vain.

"I then attempted to get out of the way and veered the ship diagonally, hoping to escape with a slight ruff. The Seguin was nearer than I supposed, however, and going at a fast rate. Suddenly the bow loomed up high above us and there was a sickening crash, and then for a moment I scarcely realized what had happened. I was thrown from my feet by the jar and the pilot house was crushed and piled on top of me."

MALTSTERS ARE IN CONVENTION

Reciprocity and Tariff the Main Subjects of Discussion.

Milwaukee, Wis., Aug. 6.—Reciprocity will be considered by the convention of the United States Maltsters' association. It is generally understood that J. H. Laughlin, a Canadian member, will introduce a resolution favoring the passage by the convention and urging the association to commit itself in favor of a lower tariff on malt. This will be fought by many members and the resolution will probably be killed.

Child Escapes Injury.

Brazil, Ind., Aug. 6.—During a storm lightning struck Frank Foster's house, almost demolishing it. Two chimneys were wrecked and a brick fell on the bed where Foster's little child was sleeping, but did not injure it.

New Swimming Record.

London, Aug. 6.—Joe Nuttall lowered the world's quarter mile open water swimming record at Leicester, going the distance in 5:50. Nuttall held the record of 5:51 for this distance in open water.

TRAIN ROBBERS MAKE BIG HAUL**PLACE TORPEDOES ON TRACK**

When Engineer Slows Up He Is Compelled to Leave the Cab With His Fireman, While Bandits Dynamite the Express Safe.

Cleveland, O., Aug. 6.—Aroused from their slumbers by the crashing of timbers, and thrown from their bunks by the careening of the vessel, twenty-five passengers and members of the crew of the steamer City of Venice rushed wildly to the deck, to find the boat almost cut in half and fast being dragged to the bottom by the weight of the 3,000 tons or iron

ore it carried. A few feet to one side loomed the steel prow of the steamer Seguin, which, in backing off from the vessel, left a huge hole through which the water was pouring.

The engineer immediately put on the brakes, and when the train slowed up a man, masked and armed, climbed on board, covering both trainmen and ordering them to hold up their hands.

Detach Express Car.

Another robber then searched the engineer and fireman for weapons. Finding none they ordered the engine to run ahead.

When a certain spot, evidently selected in advance, was reached, the train was again stopped. One of the robbers detached the coupling between the express car and the first passenger coach.

Again the engineer received orders to go ahead. He ran for half a mile and was stopped.

The engineer and fireman were then ordered from the engine and made to stand with hands up and backs against the express car.

Dynamite the Safe.

The car was then attacked with dynamite.

The robbers hastily gathered the plunger from the wrecked safe and departed on horseback.

As soon as the conductor and brakeman found that the robbers had "run away" with the engine and express car they started on foot for Savanna. When the alarm was given a posse of twenty-five officers and citizens started in pursuit.

The express car is said to have carried a lot of valuable property. The robbers got \$20,000 worth.

BOSTON MAN LOSES HIS MONEY

Finds Life in Laporte Too Strenuous and Leaves for Home.

Laporte, Ind., Aug. 6.—T. W. Scott, who arrived here several days ago from Boston to take a responsible position in a local manufacturing institution, left for the east, having reached the conclusion that life in the west is too strenuous. When he arrived he had \$200. He met some "good fellows," and was received at the city hospital in a condition which was the result of being drugged. His money and valuables were gone.

DISCOVER SEVERAL NEW STARS

University of California Astronomers Locate Many Never Catalogued.

Berkeley, Cal., Aug. 6.—Astronomer William J. Hussey announces in a bulletin which has just been issued by the University of California, the discovery of 100 pairs of double stars never before catalogued. The discovery with the Mills spectroscopic of six stars whose velocities in the line of sight are variable is made public by Director W. W. Campbell of the Lick observatory.

To Meet Boating Charge.

Macomb, Ill., Aug. 6.—At the meeting of the trustees of the Western Illinois State Normal school as an answer to the charge of boating Secretary Chipperfield was instructed to engage an expert accountant to open a set of books settling forth in detail all expenditures from the insolvency of the school.

Want Waller for Counsel.

Washington, Aug. 6.—Paymaster Penrose, who is to be tried by court-martial at Erie, Pa., on Thursday upon several charges, the principal one of which is embezzlement, has asked the navy department to assign Maj. L. W. T. Waller of the marine corps to act as his counsel.

Serious Strikes in Galicia.

Vienna, Aug. 6.—The strikes in Galicia have led to twenty-three encounters between strikers and troops in the last two days. In one case, thirteen persons were killed and 118 were wounded; in another case 200 persons were killed or wounded.

Big Fire in Ireland.

Belfast, Aug. 6.—Eighteen warehouses and two entire streets in Larne, seventeen miles from here, were destroyed by fire. Larne has a population of 3,288.

Earthquakes in Portugal.

Lisbon, Portugal, Aug. 6.—Earthquake shocks were felt throughout central Portugal and along the coast. So far no damage has been reported.

VUDOR SCREEN FACTORY PROPOSITION TO BE INVESTIGATED.

THE COMMITTEE WILL GO EAST

Business Men Stand Ready to Erect Factory Building on Recommendation of the Committee.

A movement to secure the Vudor screen factory for this city is now well under way and will end no doubt in the factory locating in this city. The firm has been carefully investigated by correspondence and all reports have proven highly satisfactory.

Committee Goes East

In order, however, to make a sure thing of it a committee consisting of Robert M. Bostwick, P. Holenadis Jr., and A. E. Blingham will leave on Friday for Worcester, Mass., to look over the plant and make a personal investigation of the business.

Will Build Factory

Should everything turn out as represented a company stands ready in this city to take a large block of the stock and build a factory in Spring Brook. The investigating committee is quite sanguine of the success of the scheme and there is little question but that the factory will come to Janesville.

The Vudor screens have a wide reputation and the business is one that can be largely increased. The company employs a great many hands and the enterprise is one that will help out the manufacturing industries of the city.

Reason For Moving

The main reason that the owners of the plant think of moving from Worcester is because they are unable to get the wood from which the screens are made without shipping it a long distance. They will be nearer their base of supplies out here and can get the grade of wood necessary to make the screens.

ARE CAMP GUESTS OF MISS COCHRANE

Members of Her Sunday School Class Will Spend a Week at Lake Koshkonong.

This morning a camping party of ten young ladies with their chaperones went to Lake Koshkonong where they will be entertained for a week by Miss Margaret Cochrane, daughter of Undersheriff Wallace Cochrane, at her father's cottage. The young ladies comprising the party were recently classmates of Miss Cochrane's in the Congregational Sunday school and this novel class reunion as Miss Cochrane's guests in camp will be heartily enjoyed by the merry crowd.

The campers are Misses Fanny Stewart of Beloit, Edith Litts, Matie Spoon, Tillie Acheson, Lulu Howard, Edna Rogers, Hattie Decker, Sara Venable, Jennie Cleland and Margaret Cochrane.

Marriage Law Decision.

San Francisco, Aug. 6.—A decision has been rendered by the Supreme court to the effect that marriages are valid between parties in Nevada previously divorced in California, even if the marriage takes place before the expiration of the time required by the California statutes.

Mine Fire in Colorado.

Trinidad, Col., Aug. 6.—Fire has destroyed the boiler-house, engine-house, two power-houses, tipples, half a mile of tramway and half the box cars of Peerless mine in Aguilar, owned by the Northern Coal and Coke company. The loss is estimated at \$100,000.

Feudist is Killed.

Jackson, Miss., Aug. 6.—A feud between the Gates and Bennett families in Pearl River county led to a fight, in which Homer Bennett lost his life and his father-in-law, Jonas Crawley, was seriously wounded. The shots were fired by Culien Gates.

Newspapers His Winding Sheet.

W. T. Hutcherson, editor of the Dickson County, N. C., Press, died at Charlotte, N. C., aged 72 years. He had worked in a newspaper office since the age of 12. He had always said that he wished to be buried in a winding sheet made of newspapers and so he was laid away. His head was placed upon a copy of the last issue of the Dickson County Press, and copies of the exchanges he admired were carefully wrapped around his body in the coffin.

Dickens Character Dead.

Lieut. Col. Froom Tafourd, late superintendent general of Indian affairs in the Dominion of Canada, has died at Wandsworth Common at the advanced age of 94, says the St. James Gazette. He was the original of Tom Traddles in Dickens' "David Copperfield." The deceased, who at one time was shipmate with Captain Marryat, the novelist, went to Canada in 1832, and for twenty years was in charge of Indian affairs at Ottawa.

Farm Machinery in California.

In no locality has modern steam machinery been applied with such effectiveness as upon the grain ranches in southern California. On one ranch the engine used to draw the machinery is of fifty horse-power and has drive wheels eight feet high. It consumes twelve barrels of oil every day, and its operation requires the services of seven men. In plowing fifty-five furrows are turned over at one time, covering a breadth of forty feet.

HALL'S CIRCUS**PLEASSES ALL**

The Afternoon Performance Speaks Well for the Whole Show This Year.

"Popcorn" George Hall has brought his combined circus and menagerie to Janesville and is this afternoon and evening entertaining the circus lovers with a good clean first class ring performance. The whole show is a Rock county institution and Col. Hall has made his home in Evansville for many years. His audience this afternoon is most enthusiastic over the exhibits and pronounce the performance good.

Columbus the Great.

Columbus, the largest elephant in the world is the chief attraction and with Prof. McCarty trained dogs and monkeys and the sixteen cages of wild animals from all parts of the world the museum is complete. The special features are also good.

Balloon Ascension.

This evening there is to be a grand balloon ascension and parachute drop at the grounds just previous to the opening of the evening show. Col. Hall is a veteran showman and has this year the best road company he has ever taken out. Janesville is the third town that they have shown in.
